“Don’t Forget”

2016 Provincial and National Driving Championship

The Ontario Truck Driving Championship (Provincial) is in Kingston, Ontario this year on July 15, 16 & 17 2016. The 1st, 2nd, 3rd & 4th place finishers from the Central Ontario Regional Truck Driving Championship will be eligible to compete at the Provincial level.

The 1st place winner, in each class at the Provincial level will go on to represent Ontario at the National Professional Truck Driving Championship in Brantford, Ontario, September 16 – 18, 2016.

Thank YOU

The Central Ontario Regional Truck Driving Championship Committee would like to say a special thanks to our valued sponsors, equipment providers, all of our judges and support staff. Your ongoing support makes our annual driving championship possible.

PURPOSE AND MANAGEMENT OF THE COMPETITION

The purpose of the Professional Driving Championships is to determine the contestant's knowledge regarding rules of the road, safety, courtesy and efficiency, and to measure his/her skills in handling the types of vehicles used in the competition.

The Professional Driving Championships in each Province, group of Provinces or Territories is under the management of the organizing committee in that Province, group of Provinces or Territories. A Track Master is appointed to oversee the competition, including determining the track layout and re-solving any disputes which may arise.

A walk-about at the track, involving all judges, the Track Master and the Team Rep will precede the driving competition. The judges will remain at their posts, while the Track Master and Team Rep walk the track. Some type of sound system is recommended to ensure all instructions are clearly heard by everyone.

The National Professional Truck Driving Championships is under the management of the organizing committee of the host Province working in conjunction with the National Committee and its established protocols. The National Committee consists of representatives from each participating Province, group of Provinces or Territories. Designated by the host Province or Region, the track Master will oversee the competition, utilizing the guidelines of the established protocols.

IHSA.ca
Work Safe for Life

Keep your promise to return home safe

As a leader in health and safety training, IHSA believes that everyone deserves to return home safe from work. Through skills-based training, auditing, and evaluation, we provide safety solutions to those who perform high-risk activities such as driving motor vehicles and transporting dangerous goods.

When you register your business with the Workplace Safety and Insurance Board (WSIB) and pay premiums to one of the rate groups IHSA serves, you and your employees automatically become members of IHSA. That means you get access to leading health and safety training, products, and services at no cost or at a reduced price.

Defensive Driving—Commercial 1 day

$85/participant

In a classroom setting, defensive driving techniques are presented with the aid of various audio-visual devices. This course is designed to involve participants in group discussions of common driving problems that are encountered by drivers each day.

Distracted Driving ½ day

$85/participant

One of the leading causes of motor vehicle collisions, injuries, and deaths in Ontario is a distracted driver. This program includes a pre-test to assess your prior knowledge of distracted driving and a post-test to measure what you have learned from the course. It provides you with an opportunity to make an impact on safety at your workplace through making a personal pledge for driver improvement and by reviewing your current workplace safe driving policy and recommending changes.

Transportation of Dangerous Goods ½ day

$85/participant

This program teaches participants their legal responsibilities for safe handling, storing, and transporting of the nine classes of dangerous goods. Participants are provided with an overview of the *Dangerous Goods Act* and related regulations. Each participant will be issued a participant's guide to work with and make notes. The record of training expires after three years.

Visit IHSA.ca/truckdriving for more information or to register.

“Don’t Forget”
2016 Provincial and National Driving Championship

The Ontario Truck Driving Championship (**Provincial**) is in Kingston, Ontario this year on **July 15, 16 & 17, 2016.** The 1st, 2nd, 3rd & 4th place finishers from the Central Ontario Regional Truck Driving Championship will be eligible to compete at the Provincial level.

The 1st place winner, in each class at the Provincial level will go on to represent Ontario at the (**National**) Professional Truck Driving Championship in Brantford, Ontario, **September 16 – 18, 2016**.

Keep your promise to return home safe

As a leader in health and safety training, IHSA believes that everyone deserves to return home safe from work. Through skills-based training, auditing, and evaluation, we provide safety solutions to those who perform high-risk activities such as driving motor vehicles and transporting dangerous goods.

When you register your business with the Workplace Safety and Insurance Board (WSIB) and pay premiums to one of the rate groups IHSA serves, you and your employees automatically become members of IHSA. That means you get access to leading health and safety training, products, and services at no cost or at a reduced price.

Defensive Driving—Commercial 1 day

$85/participant

In a classroom setting, defensive driving techniques are presented with the aid of various audio-visual devices. This course is designed to involve participants in group discussions of common driving problems that are encountered by drivers each day.

Distracted Driving ½ day

$85/participant

One of the leading causes of motor vehicle collisions, injuries, and deaths in Ontario is a distracted driver. This program includes a pre-test to assess your prior knowledge of distracted driving and a post-test to measure what you have learned from the course. It provides you with an opportunity to make an impact on safety at your workplace through making a personal pledge for driver improvement and by reviewing your current workplace safe driving policy and recommending changes.

Transportation of Dangerous Goods ½ day

$85/participant

This program teaches participants their legal responsibilities for safe handling, storing, and transporting of the nine classes of dangerous goods. Participants are provided with an overview of the *Dangerous Goods Act* and related regulations. Each participant will be issued a participant's guide to work with and make notes. The record of training expires after three years.

Visit IHSA.ca/truckdriving for more information or to register.

2015 Trophy Winners

Andrew Demerchant from Flanagan Food Service wins Single -Tandem and Rookie Trophies
